

International Journal of Machine Learning

CONTENTS

Volume 14, Number 1, 2024

Time Series and Machine Learning Hybrid Models for Food Condiment Demand Forecasting: A Case Study in Thailand	1
<i>Naragain Phumchusri* and Woratanon Sirimak</i>	
Augmented Machine Intelligence with Human Intelligence for Cryptocurrency Price Prediction	7
<i>Melika Honarmand*, Arushee Saxena, Sahaj Shandilya, Abhishek Chaudhary, Nikhil Meena3, and Philip Treleaven</i>	
LSTM Rollout Curriculum Using Double Pendulum	12
<i>Reinis Freibergs, Ēvalds Urtāns*, Ansis Ēcis, and Henrik Gabrielyan</i>	
An Industrial Use-Case for Reinforcement Learning: Optimizing a Production Planning in Stochastic Conditions ...	18
<i>Paul Berhaut*, Ikhlass Yaya-Oyé, and Axelle Albot</i>	
MBTI Personality Classification through Analyzing CVs/ Personal Statements for e-Recruitment	24
<i>Himaya Perera* and Lakshan Costa</i>	
Long Short-Term Memory (LSTM) Based Deep Learning Models for Predicting Univariate Time Series Data	30
<i>Ashish Kharel*, Zeinab Zarean, and Devinder Kaur</i>
